

WeTheFoodies Onboarding

Github

To get started, begin by creating a fork of repository
@ <https://github.com/12DaysOfCoding/WeTheFoodies>

After creating the fork, clone your version of the repository.
git clone <https://github.com/yourUserNameHere/WeTheFoodies.git>

Once initialized, set the upstream to our GitHub Organization's repository.
git remote add upstream <https://github.com/12DaysOfCoding/WeTheFoodies.git>

Before making a Pull Request, please ensure you have merged all changes from WeTheFoodies/main .
git merge upstream/origin

Visual Studio Code

Open your local GitHub Repository in Visual Studio Code.
Add Visual Studio Code extension **LiveServer**.
Press *GoLive* in the bottom right corner.
If a directory is presented, select *source/* folder.

Reminders:

Add networking folder to package api service and db service
